How Does It Work?
1. Data Collection & Detailed Reporting
We’ll coordinate and conduct data analysis to create a report detailing where your organization stands on supporting authentic youth engagement. Our report will include key recommendations, technical assistance resources, and next steps.

2. Tailored Solutions
With your organization in mind, we’ll work together to match you to a solution and customize the next steps and training plan to your identified growth areas. We’ll meet online, on the phone, or onsite.
