

# Tips for Youth Engagement!

## Step #1: Develop a Youth-Friendly Culture

- Foster an open, welcoming organizational culture that is accessible to new people who want to get involved.
- Be flexible and creative in finding ways for youth to join your movement.
- Get your whole team involved in creating spaces for youth, including staff, volunteers, and board members. Everyone should help out!
- Ask youth what they need from you, and don't be afraid to shake things up when they tell you.
