

Tips for Youth Engagement!

Step #3: Include Youth Voice at Every Level

- It's not enough for youth to just be in the room. Get youth involved in making decisions, creating content, presenting, facilitating, and more.
→ Pro-tip: Look up the "ladder of youth engagement" if you haven't already!
- Prioritize youth-led, youth-driven projects.
- Show young people you value their voice by listening to them and supporting their ideas.
- Train youth and give them resources so they can become leaders in their communities.
