

# Tips for Youth Engagement!

## Step #4: Partner with Youth-Serving Organizations

- Acknowledge that you can't be the expert in everything. Reach out to groups you admire that are already doing awesome youth work, and find ways to combine efforts.
- Ask yourself questions such as:  
Where do youth in our community spend time?  
Who are the local experts we can learn from?  
What programs already exist that we can support?
- Partnership is a two-way street. Offer your own resources, talent, and knowledge, and everyone benefits!
