

# Tips for Youth Engagement!

## Step #5: Build Relationships With Youth

- Create opportunities for mentorship whenever possible. Learn about your young people, and let them get to know you, too!
- Make time for fun, not just business. Games and icebreakers are a great way for everyone to bond.
- Believe in your youth and encourage them to follow their passions. Ask questions, listen, and find out what drives them.
- Just be yourself! Be genuine and authentic, and you'll build real connections.
